

# NEW FORD EVEREST

Go Further

# ENGINEERED FOR EXTRAORDINARY

## READY FOR THE EVERYDAY OR THE EPIC

Engineered for extraordinary inside and out, Everest is built to take on even the most epic adventures. Purpose-built capability is designed to help you tackle tough terrain and unexpected obstacles with mastery. For when you're back on-road, a comfortable ride and premium interior means you'll travel first class every day.

## OVERCOME ANY OBSTACLE

Why go around a river when you can drive right through it? Everest is built to cross deeper waters than any SUV in its class, while high ground clearance lets you muscle through most terrain with ease.

800mm  
WATER WADING

225mm  
GROUND  
CLEARANCE

Approach angle 29.5°  
Departure angle 25°  
Ramp Breakover angle 21.5

An **Electronic Locking Rear Differential** lets you take on even the toughest of obstacles. Locking the rear axle, it ensures the two rear wheels turn together and gives you increased traction and grip across slippery or rugged terrain.

**Huge Load Capacity** means you can take everything you need on your journey. Everest gives you a maximum towing capability of 3000kg, a maximum payload of 750kg and a maximum roof load of 100kg.

Max Payload	Max Roof Load	Max Towing Capability
750kg	100kg	3000kg

# MASTER ANY TERRAIN

Just turn a dial and Everest's Terrain Management System ensures maximum traction and stability enabling you to stay in control whether you're driving on sand, snow, mud, grass, rock or road.

**Sand.** Breeze across sand effortlessly with increased accelerator sensitivity and aggressive wheelspin.

**Snow, Grass or Mud.** Shifting snow, wet mud and slippery grass are no challenge when traction and control are optimised in this mode.

**Rock.** Conquer extreme off-road terrain. Choose this mode to keep 4WD in first gear for superior control tackling rocky ground.

## TRAVEL FIRST CLASS EVERYWHERE

Upgraded detailing and stitching. Premium door insert fabrics. A bold crafted gear knob design. All new materials and design detailing mean Everest delivers even more of the luxury you expect from a premium SUV.

**Seven airbags and ultra-high strength steel** provide a network of protection with front seat driver and passenger airbags and side-mounted airbags for those in the front and back.

**Seven leather upholstered seats** and **dual-zone climate control** means all of your passengers enjoy premium comfort. Both the driver and front passenger seats are 8-way power adjustable, so you can fine-tune your seating positions with ease.

**A panoramic moon roof** comprising nearly 50% of the roof space means that you can open up your world and experience life under the stars at the touch of a button.

**Active Noise Cancellation** uses three highly sensitive microphones to cancel out engine noise using opposing sound waves, ensuring you always have a peaceful drive.

**PowerFold® 3rd row seats** fold flat at the touch of a button, giving you plenty of extra cargo space.

HILL DESCENT CONTROL

HILL LAUNCH ASSIST

# STAY ONE STEP AHEAD

Everest's comprehensive **Electronic Stability Control** program uses smart technology to help keep you in control of tough situations and prevent accidents before they occur.

**Rollover Mitigation** uses a gyroscopic sensor to ensure grip and control and reduce the risk of rolling, especially when taking tight corners or overtaking.

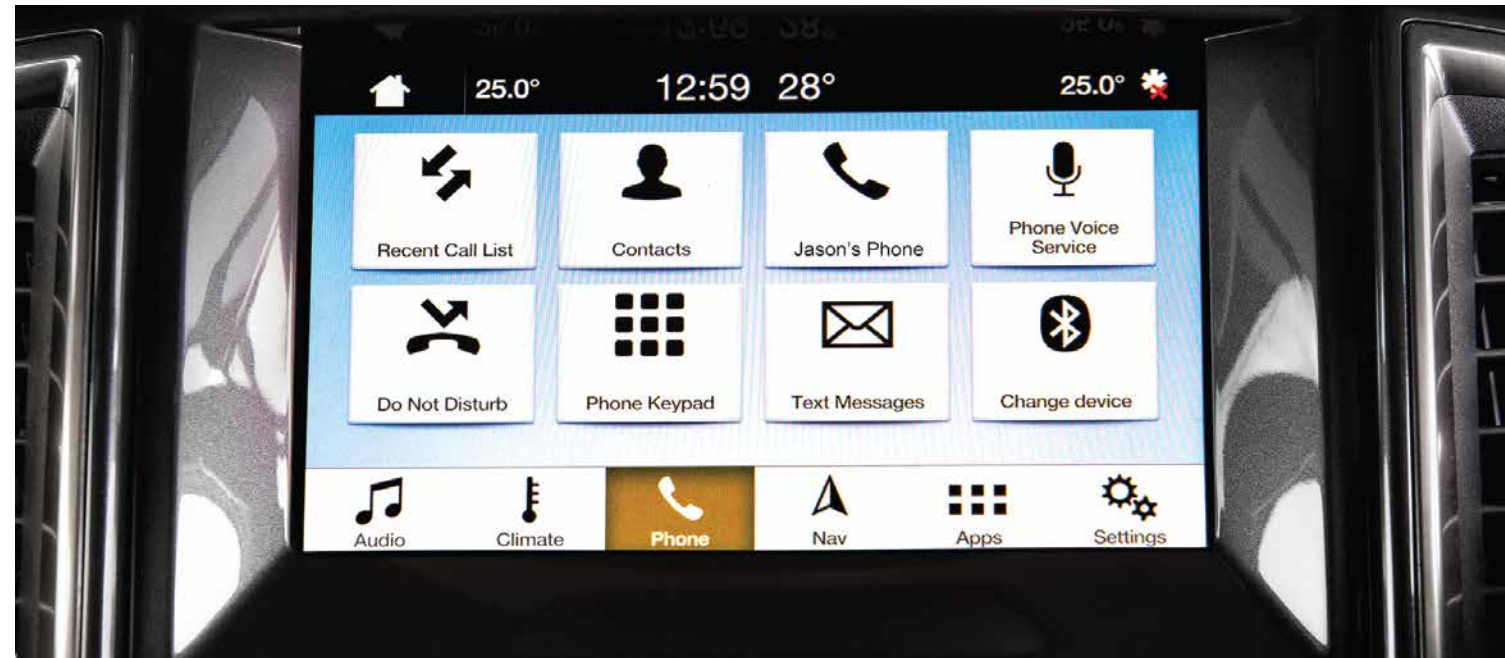

**Hill Launch Assist** automatically holds the brakes to prevent roll-back when starting on an incline.

**Hill Descent Control** takes control of braking for enhanced control on steep downhill grades.

**Trailer Sway Control** if vehicle speed is too high, the system may activate multiple times to gradually reduce your speed.

**Traction Control** maximises traction and helps you avoid wheel spin.

**Adaptive Load Control** calculates Everest's weight and centre of gravity when hauling a load and optimises safety and driving performance.

# SAY HELLO TO SYNC® 3

Stay connected whatever your adventure with SYNC®3. More intuitive, more responsive and with more capabilities than ever before.

**Just say hi.** Want to play that song? Call home? Listen to a text message? The upgraded SYNC®3 system understands over 10,000 natural voice commands, so all you have to do is ask.

**An 8-inch touchscreen** with 2 USB ports is your ultimate portable media centre.

**Apple CarPlay, Android Auto & AppLink™** seamlessly connect to SYNC®3, so you can use your favourite apps on-the-go.

# TECH THAT HELPS YOU

Everest combines brawn with brains, so it's always got you covered. Technology intuitive to your needs works with you, so you can simply enjoy the drive safely.

**Hands-free Power Lift Gate** makes your life easier when your hands are full or when the lift gate is wet and dirty. Just trigger a sensor with your leg and it will open and close automatically.

**Keyless Entry with Push-Start button** means that you can set off on your journey without having to take your key out of your pocket.

**A Rear View Camera** combined with front and rear parking sensors make it easy to park, even in tight spots.

**Rain-Sensing Wipers** detect moisture on the windscreen and activate so you always have a clear view of the outside world, whatever the weather.

**Blind Spot Information System** helps monitor the traffic in your blind spot. When changing lanes, indicator lights in your side mirrors let you know if there's a vehicle in your blind spot. **Cross Traffic Alert** lets you know if traffic is coming from either direction when reversing out of a parking spot or driveway.

# POWER YOUR ADVENTURES

Everest's engine options pack impressive power without compromising efficiency, all while a sleek aerodynamic design with a new grille delivers even greater fuel savings.

**10-Speed Auto Transmission.** Ford's latest transmission technology offers improved acceleration and more accurate, quicker gear changes.

**2.0L Bi-Turbo Engine.** Paired with an innovative 10-speed auto transmission, our new 2.0L Bi-Turbo diesel engine gives you uncompromising capability on-road and off. Two turbo-boosters work independently to deliver extra power and torque when you need it.
